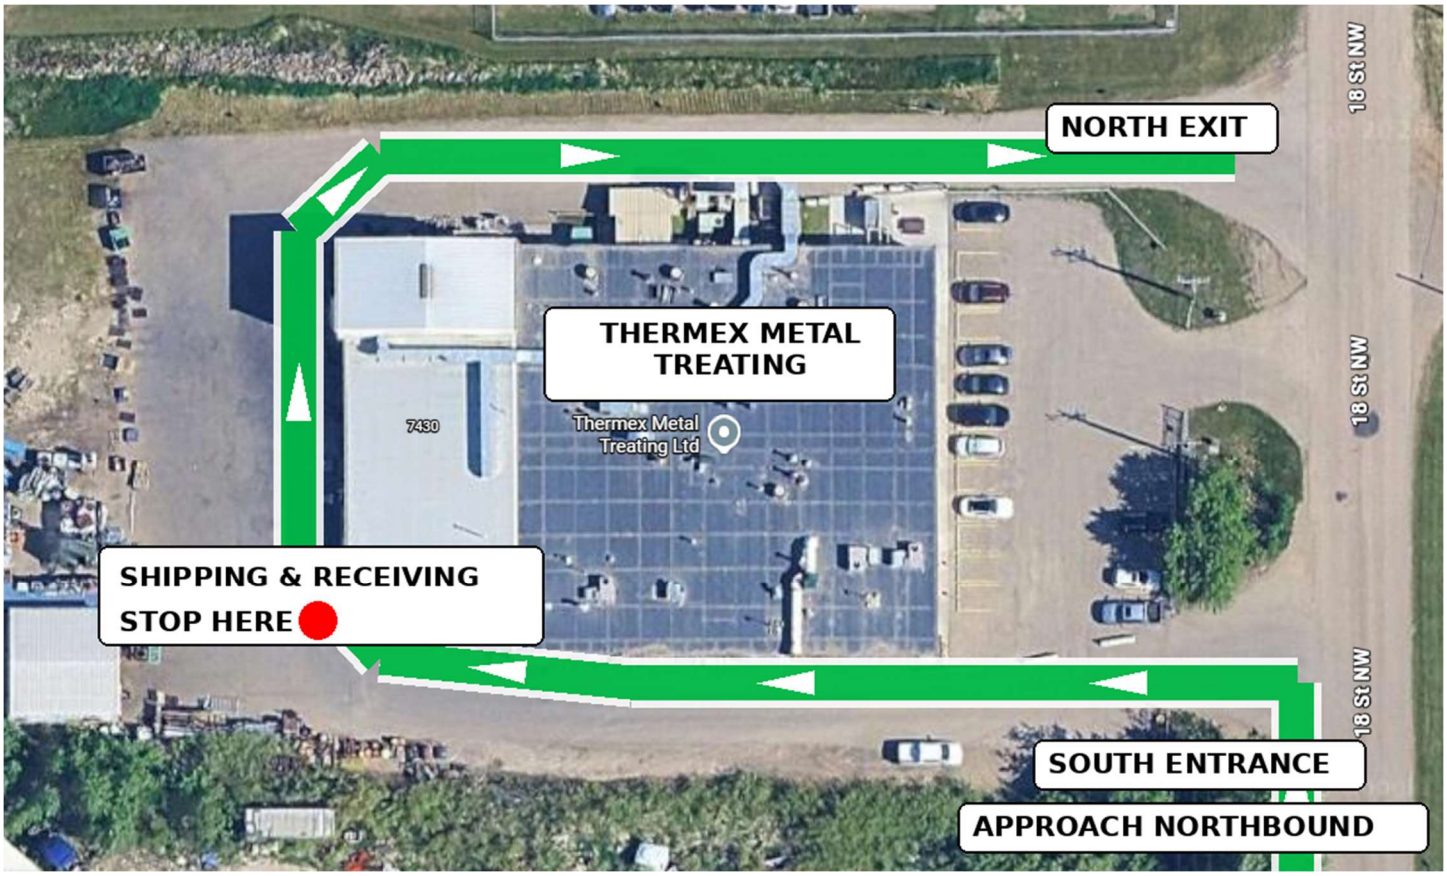
NOTICE TO DELIVERY & PICKUP DRIVERS

NEW TRUCK ROUTE, EFFECTIVE 11/09/26

To improve winter access for our trucking partners, Thermex is changing the truck route through the property. The new route provides an easier exit during winter conditions and avoids the steep grade on the previous route.



1. APPROACH	Northbound on 18th Street.
2. ENTER	Use the **SOUTH entrance**.
3. FOLLOW	Follow the roadway west around the building.
4. STOP	Shipping & Receiving at the first man door and overhead door.
5. EXIT	After your drop/pickup, continue north and use the **NORTH exit** road.

Thank you for helping us keep deliveries and pickups moving safely through the winter.
